

ARUN BHARATHI N

FULL STACK DEVELOPER

Chennai, Tamil Nadu, India | +91 78068 85868 | arunbharathi6483@gmail.com | linkedin.com/in/arun-bharathi-n-5742b2215

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience architecting and shipping scalable production applications using React.js, Next.js, NestJS, Node.js, and TypeScript. Proven track record of building reusable frontend architecture, integrating REST and GraphQL APIs, and optimizing application performance — improving page-load speed by up to 35% and cutting redundant API calls by 25%. Strong collaborator skilled at translating product requirements into reliable, maintainable, production-ready features.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, React Query, React Hook Form

Backend & APIs: NestJS, Node.js, Express.js, REST APIs, GraphQL, JWT Authentication, Swagger, Prisma ORM

Database & CMS: PostgreSQL, MongoDB, Strapi CMS

UI & Styling: Tailwind CSS, Material UI, NextUI / HeroUI, Framer Motion, Responsive Design

Testing, Cloud & Tools: Jest, Playwright, Cypress, Storybook, Git, Azure, AWS, JIRA, Agile

PROFESSIONAL EXPERIENCE

Software Engineer – Full Stack — Numentica UI

Chennai, Tamil Nadu, India | Feb 2022 – Present

- Architected and delivered five production web applications using React.js, Next.js, and TypeScript, ensuring responsive experiences across desktop, tablet, and mobile devices.
- Engineered 20+ reusable components with Material UI and Tailwind CSS, standardizing visual design and reducing duplicate development effort across projects.
- Integrated REST APIs, GraphQL services, Strapi CMS, authentication flows, and dynamic content into customer-facing applications.
- Built NestJS backend modules — including controllers, services, DTO validation, Prisma ORM, and PostgreSQL — with full Swagger documentation.
- Implemented complex forms with React Hook Form and reusable validation rules, streamlining error handling across user workflows.
- Boosted page-load performance by approximately 35% and reduced redundant API requests by approximately 25% through rendering, caching, and data-fetching optimizations.
- Supported Azure deployments, led code reviews, conducted cross-browser testing, and resolved production issues within Agile sprints.

PROJECTS

Fast Track 2 Win

- Built responsive horse-racing and betting interfaces using Blazor, Radzen, and Azure-integrated services.
- Resolved UI refresh and state-inconsistency issues by redesigning data handling, component updates, and error management.

Technologies: Blazor, Radzen, Azure, REST APIs

Myna AI

- Developed a Next.js analytics dashboard unifying data from Instagram, Facebook, and Google services.
- Improved performance for large API responses using React Query caching and controlled request handling.

Technologies: Next.js, TypeScript, React Query, Tailwind CSS, REST APIs

Vajiram & Ravi

- Built SEO-friendly learning pages and reusable interfaces using Next.js, GraphQL, and Strapi CMS.
- Balanced server-side rendering with CMS-driven content to improve page speed, indexing, and maintainability.

Technologies: Next.js, GraphQL, Strapi CMS, Material UI

EDUCATION

Bachelor of Science in Computer Science

Senthamarai College of Arts and Science, Madurai | 2021 | CGPA: 7.28/10
